A THE REGULAR iPulse AI PIPELINE

Batch 7 | September 2026 run; completed-batch audit: 21 September

426 assets

Curated cross-asset research universe

→

14 reports per asset

12 Gemini + 1 Astra + 1 Opus

→

1 consensus / asset

Gemini synthesizer + deterministic calculation

5,964 source reports → 426 completed consensuses

B THIS PAPER: TEST THE FINAL DECISION LAYER

Reuse seven assets' reports. Change how those reports are combined.

7 selected assets

3 equities with aligned forecasts

3 equities with divergent forecasts

1 crypto forecast

→

98 fixed reports

14 for each asset

Evidence + forecast paths held fixed across conditions

Gemini 3.8 Flash

GPT-6 Astra

4 conditions for each synthesizer and asset

BLIND	REPEAT	REVERSE	DISCLOSE
Hide source model	Rerun blind	Reverse blind order	Reveal source model

56 consensus outputs

7 assets × 2 synthesizers × 4 conditions

→

14 weights per output

AI assigns report influence

→

1 five-year path per output

Code pools 20 quarterly returns
